WATER AGAIN FLOWS THRU WELLER CREEK

Dynamite and Persistent
Effort Removed Dan-
ger to Local Sewer.

The water again flows through Weller Creek, which originates at the treatment plant of the village of Arlington Heights. Fear was expressed last week that with the outlet frozen, great damage would be done to the treatment plant and to many homes when the thaw would come. Monday evening Mayor J. D. Flentie reported to the board that the water in the outlet flume had dropped six feet and that the danger was over. Sixty pounds of dynamite was fired to break the ice jam that was keeping back the water last week.

The village duds were in session Monday evening. It was a cold night and there were only two spectators on hand. The usual committee reports were all approved. Among the improvements installed at the municipal building is a sprinkling system over the coal bin for use when new shipments of coal are being received and which will prevent the usual dust settling about the building. The sprinkler is the invention of Albert Bauer, dry engineer.

The amount of the January gas tax that has been credited to the village is \$568.51. Bills and payroll approved that evening totaled \$1,701.05.

A plat showing the resubdivision of lot 33 in the Allison subdivision on North State road, now to be known as Owner's subdivision, was presented with the approval of the board of appeals and was accepted by the village. This action permits the division of special assessments against the property involved.

The treasurer's monthly reports on the conditions of the various funds were referred to the finance committee. These reports are very inclusive and show the exact status of all corporate funds as well as expenditures of the month.

Return Special Assessment of Delinquents

Regardless of how much the village duds of Arlington Heights would like to withhold the return of delinquent special assessments to the county collector, such procedure is necessary as a safeguard against possible court action by bond holders. The village board decided Monday night to bow to the inevitable and authorized the mayor to ask the WPA to assign four office men or accountants to prepare the lists.

Chas. Struve, 69 Years Dies After Long Illness

Chas. W. Struve, 1103 West Euclid avenue, Arlington Heights, died Feb. 14, at Francis Willard hospital, Oak Park, after a lingering illness. The funeral was held at St. Peter Lutheran church of which he was a member, Monday afternoon. Interment was at Ridgewood cemetery.

Deceased was born in Hanover, Germany, Aug. 16, 1866. He came to America in 1884, settling in Chicago and moved to Austin in 1905, and to Arlington Heights in 1921.

He was united in marriage to Miss Elvina Schnake in 1899. The latter passed away in Oct., 1928. There remain four daughters, Adeline, Irene, Erna and Olivia, and three brothers, Herman, Henry and August.

First Aid Training Starts for Highway Police Officers

First Aid training for the members of the highway police became a reality on the 17th, when Mr. Kadlec, one of the best First Aid men in the middle west, and also a resident of Des Plaines, will begin his lectures and illustrations. Mr. Kadlec coached the contingent from Dist. 1 in a competitive contest last summer between the three Sheriffs' Highway Police Districts and finished a close second.

Palatine Cattle Breeder Elected To Guernsey Club

Peterborough, N. H. — The American Guernsey Cattle club announces the election of C. D. DeBarry, 222 West Adams St., Chicago, Ill., to membership. Mr. DeBarry has a herd of registered Guernseys on his farm at Palatine, Ill.

The American Guernsey Cattle Club is a national organization of 25,000 breeders of pure bred Guernseys. It records the registration of pure bred Guernseys which trace to the Island of Guernsey, the original home of the breed, in the English Channel. It also supervises tests of production and through Golden Guernsey, Inc., supervises the marketing of Golden Guernsey milk.

Palatine Woman Ends Own Life

APPROVAL OF SWIMMING POOL IS DOUBTFUL

— Says Supervisor of Operations

Ultimate Status Depends Upon New Set-up and Increase in Cost to the Sponsors

The approval of the swimming pool project for Arlington Heights along original lines is doubtful, was the information this week given to the local park by Edwin Hancock, supervisor of operations District No. 2.

The employment of skilled labor and the impossibility to complete its construction before June 30, are the stumbling blocks. There is one ray of hope, however. It is possible to have the project started by the WPA provided that evidence could be presented by the sponsor, which is the Village of Arlington Heights, who resides in the upper flat of the Linnemann homestead, the first floor of which was occupied only by the deceased.

Deceased had been in ill health a long time. She had underwent several operations and had become melancholy and despondent over her inability to regain her health.

The funeral was held Tuesday from the Danielsens funeral home, Rev. Poellot officiating.

NEW ORGAN TO BE HEARD WEDNESDAY

New Method Electric Organ to be Demonstrated at St. Peter Church.

With the necessity of heavy repairs upon its present pipe organ facing St. Peter Lutheran congregation at an estimated cost of over \$2,000, permission has been granted to the Hammond people to demonstrate the new electric Hammond organ at the Lenten services next Wednesday.

The new organ is operated by electricity, the console of which occupies less space than a piano, yet gives almost all the range and effects of a pipe organ. The cost of such an instrument is \$1,500.

The Hammond Organ is a new musical instrument. It is not a pipe organ in that it contains no pipes nor does it contain any air pressure system or vibrating parts. It is an organ, however, since it is capable of producing organ tones.

The Organ that can never be out of tune. The mechanism consists of small rotating tone wheels geared together and driven by a synchronous motor.

The motor can run at only one speed; therefore the tone wheels which originate the pitches can run at only one speed. Therefore the organ can never be out of tune.

Several officers of the church have heard this new organ. They would like the opinion of members of the congregation.

"The Retire at Birth Plan"

... "Every new-born child in the United States would receive from the Government a promissory note for \$20,000, at 3% interest payable in 20 years. The 3%, or \$50.00 monthly, would go to the child's parents until the child was 20. Each year during these 20 years the government would pay \$1,000 into a sinking fund for the retirement of the note, and when the child reached the age of 20 the government would give him or her the \$20,000 it had paid into the sinking fund.

Boys and girls of 20 who elected to marry would thus have a capital of \$40,000 and work would be forever unnecessary if they would undertake to have at least four children. They would receive \$50 a month for each child until it reached the age of 20, and there would be enough left of their own \$40,000 after that to care for them in their old age.

The authors of the RABP urge these advantages over the Townsend Plan: People of all ages would be for it; nobody would ever have to work again; it would cost only \$2,400 annually, the per capita cost of the Townsend plan; and it would automatically end the agitation for birth control.

Two Des Plaines Residents Will 'Tell It' to the Judge, Also of Des Plaines

Two residents of Des Plaines, George Faye of 2044 Washington street and Frank Fontano of 1237 Lee street, the former charged with assault and battery in the complaint of the latter, will have an opportunity to tell it to the Judge on the 19th. It seems as though the Judge (Sengstock) will be put in the middle, since he is also a resident of Des Plaines. Sheriff's Highway Police made the arrest on a warrant.

In a subsequent interview on Tuesday upon inquiry as to whether or not the Arlington Heights park board or any of its members had made any statements, or effort to influence the WPA to dismiss the project, Mr. Hancock in a letter stated as follows:

February 18, 1936

Mr. George K. Volz
President, Park Board
Arlington Heights, Illinois

In compliance with your request, I wish to advise you that, to my knowledge, there has been no effort made by anyone to withdraw, delay, or dismiss the project of the Village of Arlington Heights providing for the construction of a swimming pool.

Very truly yours

H. M. McCullen, Director

District No. 2

EDWIN HANCOCK

Supervisor of Operations

District No. 2

In a short note to the Herald, L.

G. Helm of Arlington Heights, who

spends his winters in California,

says, "I picked two bouquets of sweet peas today; had to use a ladder; they were nine feet high. Wish I could send them to you snow shoveler back home."

tage of it here.

Feed The Birds

Word has been just received from Dr. James E. West, Chief Scout Executive, asking that all Scouts cooperate in the feeding of birds during the snowy weather. All troops in the Northwest Suburban Council are asked to make definite plans to provide feed for the birds.

Enjoyable Program at P. T. A. Council of Northwest Suburbs

The second county meeting of the Northwest Suburbs was held at the Palatine high school on February 14, 1936. There were two sessions, morning and afternoon, with a luncheon at the Methodist church at 12:15.

At 10:30 the business meeting was held.

At 10:45 Mrs. Helen Seiddell, State Homemaking chairman spoke on the three different phases of home making—love, order and understanding.

Love—We should live so that our children see and hear it at home.

Order—Our home work should be planned; meals on time when possible; children should be in bed at proper time, they need plenty of sleep. Sleep and recreation should be governed according to a plan.

Understanding—the home buyer of necessities should have an understanding of the quality of merchandise and should know how to care for it when bought. It is needless to say, almost, that one should get full value for the purchase price, but by careless buying we do not. And in taking care of things bought one should be careful. For instance, we might buy a dress and thinking it will wash beautifully, it has shrunk, in which case sending it to the cleaners would have been real economy. One should keep in touch with the splendid articles and suggestions in any number of excellent magazines.

She spoke on character education, spiritual training and moral courage. Character education should begin at home. No amount of school training alone will be sufficient. It is absolutely essential for spiritual training that the children be brought up to follow some faith, no matter what faith it is. This training should also begin in the home. To have the children grow up strong in moral courage to overcome the temptations in life's pathways they should have careful training, at home as well as in the school.

Palatine tax payers can pay

their taxes at the National Bank building between 9 a. m. and 4 p. m., also Saturday evening.

Wm. Gieseke, collector of Schaumburg township, will receive taxes at his own home.

William H. Harmening of Bloomingdale Twp. Dies; Funeral Friday

William H. Harmening died at his home in Bloomingdale township early Tuesday morning.

He was born in Chicago on Nov. 18, 1872 and when 11 months old, moved to the farm home where he died.

He was a member of the Evangelical Lutheran church of Ontarioville.

Surviving him are his widow, Emma; eight children, William Jr. of Bloomingdale township, Henry at home, Mrs. Walter Hitzman of Elgin, Mrs. Harry Benhart of Roselle, Mrs. Elmer Nerge of Elgin, Herman of Chicago, Martin of Ontarioville and Mrs. Leslie of Elgin; 15 grandchildren; a sister, Mrs. Sophia Schick of Bartlett, and a sister-in-law, Mrs. Louise Harmening of Roselle.

Funeral services will be held Friday afternoon at 1:30 from the Wait-Ross-Allanson funeral church with the Rev. W. Jede of Ontarioville officiating. Burial will be in Lake Street Memorial Park. Friends may call at the chapel.

If, however, the Sponsor, with this understanding, desired to have us start it and agree to complete the unfinished portion, we probably necessary additional contribution on the part of the Sponsor.

Also, we would not be able to start operation of this project if we were approved as it would not be possible to carry it through to completion by June 30, which is the latest date under which we can operate projects under W. P. A. operation. This project was set up for 8 months operation and it would not be possible to complete it, if operation were started March 1, by June 30.

After the luncheon the meeting viewed talkies of consumer buying, a story of a newly-wed couple that did not know how to manage their money. The picture illustrated how when the housewife learned to buy when buying patent medicines, to beware of deceptions in labeling drugs. He stressed the importance of cleanliness and sanitation in products produced on the farm. Mr. Clark answered inquiries made by his listeners. He went on to discuss the grading of canned goods, that it isn't necessary to buy the most expensive canned goods, but one should buy Grade A, which is really the least expensive in the long run.

WATER AGAIN FLOWS THRU WELLER CREEK

Dynamite and Persistent
Effort Removed Dan-
ger to Local Sewer.

The water again flows through Weller Creek, which originates at the treatment plant of the village of Arlington Heights. Fear was expressed last week that with the outlet frozen, great damage would be done to the treatment plant and to many homes when the thaw would come. Monday evening Mayor J. D. Flentie reported to the board that the water in the outlet flume had dropped six feet and that the danger was over. Sixty pounds of dynamite was fired to break the ice jam that was keeping back the water last week.

The village duds were in session Monday evening. It was a cold night and there were only two spectators on hand. The usual committee reports were all approved. Among the improvements installed at the municipal building is a sprinkling system over the coal bin for use when new shipments of coal are being received and which will prevent the usual dust settling about the building. The sprinkler is the invention of Albert Bauer, day engineer.

The amount of the January gas tax that has been credited to the village is \$568.51. Bills and payroll approved that evening totaled \$1,701.05.

A plat showing the resubdivision of lot 33 in the Allison subdivision on North State road, now to be known as Owner's subdivision, was presented with the approval of the board of appeals and was accepted by the village. This action permits the division of special assessments against the property involved.

The treasurer's monthly reports on the conditions of the various funds were referred to the finance committee. These reports are very inclusive and show the exact status of all corporate funds as well as expenditures of the month.

Return Special Assessment of Delinquents

Regardless of how much the village duds of Arlington Heights would like to withhold the return of delinquent special assessments to the county collector, such procedure is necessary as a safeguard against possible court action by bond holders. The village board decided Monday night to bow to the inevitable and authorized the mayor to ask the WPA to assign four office men or accountants to prepare the lists.

Chas. Struve, 69 Years Dies After Long Illness

Chas. W. Struve, 1103 West Euclid avenue, Arlington Heights, died Feb. 14, at Francis Willard hospital, Oak Park, after a lingering illness. The funeral was held at St. Peter Lutheran church of which he was a member, Monday afternoon. Interment was at Ridgewood cemetery.

Deceased was born in Hanover, Germany, Aug. 16, 1866. He came to America in 1884, settling in Chicago and moved to Austin in 1905, and to Arlington Heights in 1921. He was united in marriage to Miss Elvina Schnake in 1899. The latter passed away in Oct., 1928. There remain four daughters, Adeline, Irene, Erna and Olivia, and three brothers, Herman, Henry and August.

First Aid Training Starts for Highway Police Officers

First Aid training for the members of the highway police became a reality on the 17th, when Mr. Kadlec, one of the best First Aid men in the middle west, and also a resident of Des Plaines, will begin his lectures and illustrations. It also supervises tests of production and through Golden Guernsey, Inc., supervises the marketing of Golden Guernsey milk.

Palatine Woman Ends Own Life

APPROVAL OF SWIMMING POOL IS DOUBTFUL

— Says Supervisor of Operations

Ultimate Status Depends Upon New Set-up and Increase in Cost to the Sponsors

The approval of the swimming pool project for Arlington Heights along original lines is doubtful, was the information this week given to the local park by Edwin Hancock, supervisor of operations District No. 2.

The employment of skilled labor and the impossibility to complete its construction before June 30, are the stumbling blocks. There is one ray of hope, however. It is possible to have the project started by the WPA provided that evidence could be presented by the sponsor, which is the Village of Arlington Heights, that it would agree to complete the unfinished portion when the expiration period arrived for WPA participation in projects of this nature.

Mr. Hancock was emphatic in the statement, however, that the present set-up would have to be revised and that the village would have to increase its share of cost to take care of the skilled labor that will be required.

This information was given to the park board when representatives called at the WPA office to learn the exact status of the project.

When the matter of the proposed land purchase was brought before a meeting of the Arlington Heights park board last week, President Geo. K. Volz directed the land committee to inquire of the WPA the exact status of the park projects, so far as the government was concerned. Messrs. Crane and Taeger were well received by the office of the Work Progress Administration where they learned the facts stated above.

In order that the inquiry made by the park board could be placed in writing, Mr. Hancock forwarded the board the following letter:

February 13, 1936
Arlington Heights Park Board,
Arlington Heights, Illinois
Gentlemen:

Re: W. P. A. Project State Serial
No. G-24038, proposed swimming
pool.

In compliance with the inquiry of Mr. E. W. Crane and Mr. P. C. Taeger as to the status of the above project, I wish to advise you that this project has not yet received approval so that we can start operation.

I also wish to state that if this project were approved for operation of this date, it would be necessary to have it revised to take care of the skilled labor, which would probably necessitate additional contribution on the part of the Sponsor.

The motor can run at only one speed; therefore the tone wheels which originate the pitches can run at only one speed. Therefore the organ can never be out of tune.

Several officers of the church have heard this new organ. They would like the opinion of members of the congregation.

NEW ORGAN TO BE HEARD WEDNESDAY

New Method Electric Or- gan to be Demonstrated at St. Peter Church.

With the necessity of heavy repairs upon its present pipe organ facing St. Peter Lutheran congregation at an estimated cost of over \$2,000, permission has been granted to the Hammond people to demonstrate the new electric Hammond organ at the Lenten services next Wednesday.

The new organ is operated by electricity, the console of which occupies less space than a piano, yet gives almost all the range and effects of a pipe organ. The cost of such an instrument is \$1,500.

The Hammond Organ is a new musical instrument. It is not a pipe organ in that it contains no pipes nor does it contain any air pressure system or vibrating parts. It is an organ, however, since it is capable of producing organ tones.

The Organ that can never be out of tune. The mechanism consists of small rotating tone wheels geared together and driven by a synchronous motor.

The motor can run at only one speed; therefore the tone wheels which originate the pitches can run at only one speed. Therefore the organ can never be out of tune.

ARLINGTON HEIGHTS

What is the news? Try to find out from people who now move about. Parties postponed, autos laid off, Each one you meet must stop and cough, Harrowing tales from near and far, From folks much worse off than we are;

There are some now severely ill, May good friends bring them comfort still;

It is good news to hear of when Good deeds come from our business men;

Read our home paper, understand Each one must reach a helping hand.

Weather makes news when we are now beginning our fifth week of zero weather, the most severe in record since the weather bureau was established in '71.

Mr. and Mrs. Arthur Weise fortunately started for Louisville, Kentucky just in time to be ahead of the storm Sunday, so they got through in time to escape being snowed in.

Mrs. J. P. Uselding, who is an asthma victim, is suffering from the effects of severe weather.

The meeting of the Presbyterian Missionary society has been postponed from Friday this week, to a more convenient season.

Mr. L. McDonald and Mr. Frank Cizek went to Barrington Sunday to enjoy tobogganing which they did; also received an additional exhilaration from their trip home.

Our popular home dentists, Dr. Duan and Dr. Baumann, are adding to their store of professional knowledge by attending the National Dentists convention held in Chicago this week.

Mr. and Mrs. August Toussaint and children returned recently from a ten days vacation trip to Washington, D. C. They had a delightful time viewing things of interest in our Nation's capitol, as well as visiting some of their relatives.

Mrs. Robert Thompson is planning to go about the first of March with a company of friends to Miami, Florida, where, while enjoying the delights of summer flowers and vegetables she will visit her relatives and friends who live there.

Mrs. H. C. Cleveland came home last Saturday from a two week's stay with the family of her son at Bloomington, Indiana, where she was helping her daughter-in-law in her recovery from a recent prolonged illness. She left her son's family all well excepting Mrs. Cleveland, Jr., and she is hopefully regaining health. More than this, our helpful friend left the birds singing in the sunshine down there and came to radiate sunshine over poor home folks.

Mrs. Louise Klehm Walgast writes from Petosky, Michigan, where her husband is the college coach, that the background was all right for their annual event of winter sports, but the blockage on railroads and bus lines prevented the attendance of those from a distance. In this Mrs. Walgast was deeply disappointed in failing to see her old friends from the Chicago land.

Mr. and Mrs. Steve Bauer came out to visit his parents and brother and introduce their new son to grandfather, grandmother and Uncle Jake, and didn't they give him a hearty welcome? Indeed they did.

Mr. and Mrs. Willis Breeze left home first of this week to go down into Virginia to the home of Mrs. Breeze's mother, foster mother who was reported critically ill.

Mrs. Jacob Bauer, after a two weeks layoff because unable to work, returned Monday to her usual busy place in the Creamery Package plant.

Mr. and Mrs. Arthur Gross enjoyed a pleasant outing trip down through part of southern Illinois, over the week-end. No matter who they are voting for down there the weather isn't as fierce as ours.

Goody, Goody, save this date, February 25, date for minstrel show in St. James hall, to be presented by the players from Father Wagner's church in Chicago for benefit of St. James church.

Mrs. William Beckman assisted by Mrs. Callahan in her home entertained the auxiliary of the V. F. W. Friday night last week. It was a merry Valentine party with bunco for amusing game. Refreshments the top notch kind, were generously served. No one thought of cold or storm in the genial happy company with such ideal hostesses. It was a jolly Valentine number in the party line.

Mr. and Mrs. Charles Klehm had a pleasant change of scene and climate in several weeks spent at Brownsville, Texas, looking after their property interests in that vicinity. Their daughter, Mrs. Timmerman and her little baby daughter accompanied them. It was a long trip for Mrs. Timmerman, who had just returned from a visit with her sister, Louise at Petosky, Michigan. They were in Texas when Jack Frost did damage to early garden prospects. They visited old Arlington Heights neighbors, the Waymans. They got back in time to enjoy a real change of climate in the clutch of zero weather.

Mr. Clarence Städler received word from his father, who is in his home near Fort Lauderdale, Florida, in which he speaks of their having some uncomfortable stormy weather, yet most of the time they enjoy sunshine and summer-like weather.

Mr. and Mrs. John Sayers and daughter, Marjorie went to Orlando Sunday to be with Mr. Sayer's parents on the occasion of their sixty-first wedding anniversary.

SAINT JAMES PARISH TO GIVE LENTEN SHOW

Holy Name Society to Sponsor "The Dusky Follies of 1936".

Frank Holub, comedian and interlocutor, assisted by a cast of 45 other singers and gag men will present at St. James Parish school hall, North State Road, Arlington Heights, Tuesday evening, February 25, 1936, 8:15 p. m. The Dusky Follies of 1936.

These entertainers of St. Bernardines park, Forest Park, Ill., are well known in the Chicago area for their singing, dancing and comedy.

Remember only one performance, an evening of riotous laughter and fun, do not fail to see this show.

Lenten Services Start at St. Peter Lutheran Church

Rev. Fricke, starting Feb. 26, will present Lenten services at St. Peter church every Wednesday evening until Easter. He will talk on the Miracles of Calvary, the individual subjects will be:

Feb. 26: "How to View the Miracles."

March 4: "The Darkness."

March 11: "Rending of the Temple Veil."

March 18: "The Earthquake."

March 25: "The Open Grave."

April 1: "Blood and Water."

The general public is earnestly invited to hear the tragic, but blessed story of Christ's passion. These sermons, preached by Pastor Fricke, will elevate your soul. They will make the Savior more real to you.

American Vice Consul Spends Week-end in Arlington Heights

Mr. and Mrs. Gerald Jones and daughter, Charline, were last weekend guests of Mr. and Mrs. Donald G. Costain. Mr. and Mrs. Costain and Mr. and Mrs. Jones were associated together in their course thru Huron College in South Dakota and Mr. Jones and Mr. Costain were boyhood friends from early childhood days.

Mr. Gerald Jones has been American Vice Consul to Barranquilla, Columbia, South America for the past seven years. He has just been transferred to a new post as vice consul to Belfast, Ireland. He was given sixty days furlough, during which time he, with his family, Mrs. Jones and Charline, will visit their old home in Dakota and family friends and neighbors before leaving for Belfast.

Mr. and Mrs. Costain enjoyed a delightful visit with these lifetime friends from South America.

Audrey Sachs, little daughter of Mr. and Mrs. Elmer Sachs, was home from school with an acute attack of indigestion. She gave her mother quite a few anxious moments until the worst was over, as the first thing thought of was appendicitis.

"When winter locks their pantry doors

How hungry birds must grow! For all the seed on which they feed Is buried under snow."

Why not scatter a few crumbs of bread and hear your feathered friends offer their chirps of thanks.

In spite of the weather, the bingo party Mrs. Herman Meyer held Monday night, was quite a success. Twenty dollars was netted for the Rebekah lodge.

When Mr. and Mrs. Roy Lawbaugh went over to the home of Mr. and Mrs. Robert Blackburn Thursday evening, they expected to have a quiet game of bridge. But Mrs. Blackburn, knowing it was Mrs. Lawbaugh's birthday, had planned a little surprise party for her and had invited in a few other couples to wish her happy birthday.

The Gleaners Circle will meet next Wednesday evening, Feb. 26, at the home of Mrs. Wm. Kopplin, 440 South Evergreen.

Mrs. George Pfingston entertained the Neighborhood club at a luncheon, Monday.

Mrs. Orville Baldwin entertained her bridge club at a dessert luncheon Tuesday.

Little Mary Kreklow was hostess to several little friends Friday, Valentines day. The children were invited to supper instead of having afternoon refreshments. What a wise plan to follow.

The Stitch and Chatter club met Tuesday evening at the home of Mrs. Raymond Dieball, still looking forward to that sleigh ride. Oh, well, there is still plenty of snow.

Friday afternoon the Campfire Girls will entertain their mothers at a party held at the South side school. Each trip will have a part in the entertainment.

Dr. G. B. Baxter of Munising, Mich., his wife and son, Donald, visited his relatives here Sunday. This week he is attending the Dental Convention in Chicago, while his wife is visiting friends in Chicago.

Mr. and Mrs. John Sayers and daughter, Marjorie went to Orlando Sunday to be with Mr. Sayer's parents on the occasion of their sixty-first wedding anniversary.

Be on the Lookout for Phoney money, U.S. warns

Federal authorities have sent out warnings that the counterfeit money makers have again started to circulate "phoney" bills in the Chicago area. The bills are in one, five, ten and 20 dollar denominations. Here's the way to detect counterfeit money:

"This being the Seventh Federal Reserve district, the figure 7 would appear in the four corners of each bill. If any other than a Chicago district bank should appear in the circle in the left half of the note, where should also appear the figure 7, on the letter G, this being the seventh letter of the alphabet in the center, it surely would be a counterfeit.

Reserve Number or Letter

Here's a list of the Federal Reserve districts and the number or letter that must appear, or you may know instantly the bill is no good.

Federal Reserve district No. 1 Boston, must read No. 1 or 'A' in circle: No. 2 New York must read No. 2 or 'B'; No. 3 Cincinnati must read No. 3 or 'C'; No. 4 Cleveland must read No. 4 or 'D'; No. 5 Richmond must read No. 5 or 'E'; No. 6 Atlanta must read No. 6 or 'F'; No. 7 Chicago must read No. 7 or 'G'; No. 8 St. Louis must read No. 8 or 'H'; No. 9 Minneapolis must read No. 9 or 'I'; No. 10 Kansas City must read No. 10 or 'J'; No. 11 Dallas must read No. 11 or 'K'; No. 12 San Francisco must read No. 12 or 'L'.

Is the Picture Clear?

"The first thing to notice is the picture. First the hair—is it smooth? Are the lines clear cut and regular? In almost all counterfeits the hair is cotton like. Next the eyes, are they clear and human or do they stare like one dead?"

"Next measure the plate length by laying a good bill over the suspected one. Almost always there is a variation of from 1-16 to 1-8 of an inch. Next the long serial number should be observed, you will generally find this number (by comparison with a good bill) either irregular, not absolutely in straight line, or either the type too thick or too thin or off color. Next note the general coloring back and front. Does it have too much of a blue cast or possibly too light green in color? Don't look for hair lines in good or bad bills. The new money is mostly chopped up silk. Don't try to see if the ink rubs off. This will happen in both good and bad bills."

Freeze-up Causes Police Chief To Be a Bachelor

C. H. Skoog, Arlington Heights police chief, is a bachelor, until warmer days arrive. Mrs. Skoog and children are staying with her parents in Riverside. No matter how efficient C. H. may be as a police officer, his efforts to keep the water main from freezing were unsuccessful and he lost his family until the cold days blow over.

The two neighbors of Mr. Skoog, Herman Schmuckard and Fred Hinze are likewise without water.

their last meeting by Madam

Marge of the Marge Shoppe

<p

ARLINGTON HEIGHTS

What is the news? Try to find out from people who now move about. Parties postponed, autos laid off, Each one you meet must stop and cough.

Harrowing tales from near and far, From folks much worse off than we are;

There are some now severely ill, May good friends bring them comfort still;

It is good news to hear of when Good deeds come from our business men;

Read our home paper, understand Each one must reach a helping hand.

Weather makes news when we are beginning our fifth week of zero weather, the most severe in record since the weather bureau was established in '71.

Mr. and Mrs. Arthur Weise fortunately started for Louisville, Kentucky just in time to be ahead of the storm Sunday, so they got through in time to escape being snowed in.

Mrs. J. P. Uselding, who is an asthma victim, is suffering from the effects of severe weather.

The meeting of the Presbyterian Missionary society, has been postponed from Friday this week, to a more convenient season.

Mr. L. McDonald and Mr. Frank Cizek went to Barrington Sunday to enjoy tobogganing which they did; also received an additional exhilaration from their trip home.

Our popular home dentists, Dr. Dium and Dr. Bauman, are adding to their store of professional knowledge by attending the National Dentists convention held in Chicago this week.

Mr. and Mrs. August Toussaint and children returned recently from a ten days vacation trip to Washington, D. C. They had a delightful time viewing things of interest in our Nation's capitol, as well as visiting some of their relatives.

Mrs. Robert Thompson is planning to go about the first of March with a company of friends to Miami, Florida, where, while enjoying the delights of summer flowers and vegetables she will visit her relatives and friends who live there.

Mrs. H. C. Cleveland came home last Saturday from a two week's stay with the family of her son at Bloomington, Indiana, where she was helping her daughter-in-law in her recovery from a recent prolonged illness. She left her son's family all well excepting Mrs. Cleveland, Jr., and she is hopefully regaining health. More than this, our helpful friend left the birds singing in the sunshine down there and came to radiate sunshine over poor home folks.

Mrs. Louise Klehm Walgast writes from Petosky, Michigan, where her husband is the college coach, that the background was all right for their annual event of winter sports, but the blockage on railroads and bus lines prevented the attendance of those from a distance. In this Mrs. Walgast was deeply disappointed in failing to see her old friends from the Chicagoland.

Mr. and Mrs. Steve Baur came out to visit his parents and brother and introduce their new son to grandfather, grandmother and Uncle Jake, and didn't they give him a hearty welcome? Indeed they did.

Mr. and Mrs. Willis Breese left home first of this week to go down into Virginia to the home of Mrs. Breese's mother, foster mother who was reported critically ill.

Mrs. Jacob Bauer, after a two weeks layoff because unable to work, returned Monday to her usual busy place in the Creamery Package plant.

Mr. and Mrs. Arthur Gross enjoyed a pleasant outing trip down through part of southern Illinois, over the week-end. No matter who they are voting for down there the weather isn't as fierce as ours.

Goody, Goody, save this date, February 25, date for minstrel show in St. James hall, to be presented by the players from Father Wagner's church in Chicago for benefit of St. James church.

Mrs. William Beckman assisted by Mrs. Callahan in her home entertained the auxiliary of the V. F. W. Friday night last week. It was a merry Valentine party with bunches for amusing game. Refreshments the top notch kind, were generously served. No one thought of cold or storm in the genial happy company with such ideal hostesses. It was a jolly Valentine number in the party line.

Mr. and Mrs. Charles Klehm had a pleasant change of scene and climate in several weeks spent at Brownsville, Texas, looking after their property interests in that vicinity. Their daughter, Mrs. Timmerman and her little baby daughter accompanied them. It was a long trip for Mrs. Timmerman, who had just returned from a visit with her sister, Louise at Petosky, Michigan. They were in Texas when Jack Frost did damage to early garden prospects. They visited old Arlington Heights neighbors, the Waymans. They got back in time to enjoy a real change of climate in the clutch of zero weather.

SAVE THE COUPONS

EAST MAINE

The Royal Neighbors of America announce a Hard Times party, to be given in the Glenview Civic building, Thursday evening, Feb. 20. Prizes for the best costumes will be awarded. Dancing and refreshments have been provided.

Funeral services for the late Mrs. Nickolas Haupt were held from her home on Harrison street, Friday afternoon at 1:30. Mrs. Haupt was born in Germany 86 years ago as Johanna Melzer, coming to this country when quite young. After her marriage to Nickolas Haupt, residence was established in Glenview, where they have lived all of the time. Mrs. Haupt was one of the early settlers. Rev. George Winters of the Congregational church officiated, and a quartette from the church sang two hymns. Burial was in Oakwood cemetery.

Mourning her loss are the husband, two sons, Edward and Joseph and two daughters, Norma Melzer and Celia Ward, all residing in Glenview. There are also grandchildren, other relatives and many friends.

MISS Jeannette Rogen, daughter of Mr. and Mrs. Fred A. Rogen of Pine street, spent the weekend with her parents. Jeannette had come home on Friday to attend the funeral of her grandmother, Mrs. Nickolas Haupt.

Announcement was made on February 1 of the marriage of Mr. Russell Grenning, son of Mr. and Mrs. Matthias Grenning of Glenview, to Miss Mildred Mockus of Niles Center. The young couple were married in St. Peter's Evangelical church of Niles Center, and have taken an apartment in Niles Center. We extend them best wishes.

Announcement is also made of the marriage on Feb. 15, of Mr. Walton Seales, son of Mr. and Mrs. George Seales of McLean Court, to Miss Adeline Morton, second daughter of Mr. and Mrs. George Morton of Glenview avenue. These two young people have been a popular couple in the village for some time, and we extend them congratulations. They will reside in a small apartment above the Rogen stores.

The O. E. S. Girls club were entertained by Miss Florence Moeller of Northbrook Monday evening.

The Glenview Congregational church has called the Rev. W. Lewis Troyer of Chicago as minister. Rev. Troyer has been minister in Iowa for two years, and served the Cragin church of Chicago, two years. He and his family will move to Glenview in the near future.

Mr. and Mrs. J. N. Westbrook and Miss Lillie Palmgren attended the monthly meeting of the Chicago Congregational club Monday evening, held at the Union League Club. The speaker was Mr. David Seabury whose topic was "How to Work Successfully."

The Valentine Card party, sponsored by the Order of the Eastern Star, was called off because of the severe weather. The party has now been scheduled for Friday night, March 13.

The Star club was entertained at the Glenview Recreation parlor on Waukegan road Tuesday afternoon. Games of 500 and bridge were played. Hostesses for the occasion were Mrs. Julia Fuhr, secretary of the club; Mrs. Jane Krumm, and Miss Lillie A. Palmgren.

The White Shrine, meeting at Des Plaines Masonic Temple, and to which a number of persons from Glenview belong, announce a chop suey supper to precede past officer's night, to be given in the Des Plaines Masonic Temple. Reservations must be in by February 19 if possible.

WEST NORTHFIELD

St. John's Ev. Lutheran Church
W. G. Fechner, Pastor

On Sunday services will be held at the following time: German 9:30 a. m., English 10:45 a. m.

The Men's club will give an entertainment with a Washington feature on Friday and Saturday at 8 p. m. Admission for adults 25c, for children 10c.

Lutheran radio broadcasts may be heard as follows: Sundays, WTMJ 8 a. m.; WJJD 12:30 p. m.

"The Lutheran Hour, daily, WTMJ 6:45 a. m.; Thursdays, WAAF 3:30 p. m.

Bills for Broken
Door Awaits Owner of
Abandoned Car

Among the peculiarities of this wintry weather, was the case of the abandoned car found by Sheriff's Highway Police at Skokie and County Line roads Feb. 15. An investigation revealed that the car had contained three men who apparently had consumed a quantity of alcoholic beverages. Because no one answered their continued rapping on the door of the Skokie Gardeens, they broke it. Mrs. Farenti, the proprietress, then admitted them and they immediately demanded a means of conveyance to the nearest railroad station. Rather than have the premises damaged the request was granted. The car is still being held and no doubt the damage done will be paid for, when the identity of the owner becomes known.

NILES CENTER

Mr. and Mrs. Frank Weis and son, Norman and Mrs. Anna Schmitz have returned from several months vacation in Florida. They got home just in time for our second severe cold snap. Quite a change after the Florida climate.

Mr. and Mrs. Claude Lange, Mr. and Mrs. Albert Buthmann and Mr. and Mrs. Walter Kartheus were guests of Mr. and Mrs. Charles Ahrens of Lincolnwood, Sunday evening.

Mr. and Mrs. F. Post have moved to Chicago to make their home with their daughter for several months.

Little Betty Rae has been ill the past week with sort of a stomach flu.

Mrs. F. Froelich, Mrs. Phoebe S. Biederstadt and Mrs. Emil Eggert attended the annual Woman Congress at the Palmer House last Thursday.

Friends and relatives gathered at the home of F. C. Stielow last Saturday to help him celebrate a birthday anniversary.

About one hundred women attended Reciprocity day at the Cosmos club meeting on Monday. The Cosmos chorus gave a splendid program. Honored guests were Mrs. E. J. Lehmann, state president of the Federation of Women's clubs and Mrs. H. V. Weed, president of the Tenth District.

Many Niles Center friends of Miss Evelyn A. Brown were greatly surprised at receiving a Valentine greeting announcing her marriage to Mr. Jack Flynn. Mr. and Mrs. Flynn will make their home at 5218 Brown street. They kept this a secret since August 13, 1935, the date of their marriage.

St. Peter's Evangelical choir made a very fine showing at Rev. W. Kochheim's church in Chicago last Thursday night. Everyone was very much impressed for the splendid way in which the choir rendered their songs. After the song service, refreshments were served and an hour of fine fellowship was enjoyed.

Mr. and Mrs. F. L. Neettling, Jr., and son, with Mrs. Adelia Witte, attended a birthday party Valentine's Day in honor of Mr. Neettling's sister, Mrs. Fred Fenske of Chicago.

The newlyweds, Mr. and Mrs. Edwin Lemke spent Sunday with Mr. and Mrs. John Lemke in Wheeling.

The Niles Center Hawks A. C. are sponsoring a Hard Year dance at Croll's hall, 8020 Lincoln avenue, Saturday, Feb. 29. Music will be furnished by Mel Borchardt's orchestra. Tickets are 35c. The members are all home boys who played some nice baseball last summer, so help the boys along by attending the dance.

Mrs. Oscar Wenzel, Mrs. Louis Burmeister and Mrs. Ida Arlett called on Mrs. Frank Gabriel at St. Francis hospital, Friday afternoon.

A large number of Niles Center helped Mrs. Gilbert Fosket on Friday, February 28, 2:30 p. m. Mrs. Marvin Greener will review "North to the Orient" by Anne Lindbergh Saturday evening.

Mr. and Mrs. Frank Mesker and son, Harvey and Miss Lillian Buthmann of Chicago, Mr. and Mrs. R. J. Kruse, Miss Violin Kruse and Mrs. Emma Wolters were guests of Mr. and Mrs. Albert Buthmann Saturday evening.

Mrs. Christi Simone has been confined to her bed for the past two weeks with an attack of the grippe.

Chadwick Cobb, Jack Baumann, Harold Wolters and George Goldstein attended Senior night at the Evanston high school Saturday evening.

Mr. W. C. Wolters and mother Mrs. Emma Wolters visited with Mr. and Mrs. Bernhard Brandt in Chicago Friday evening.

Mr. and Mrs. Roy Drexler spent Sunday at the Carl Schurke home.

Quite a number of people attended the service in St. Paul's church Sunday evening which was sponsored by the men's club and enjoyed the impressive sermon delivered by Rev. Kurth of Bethlehem church of Evanston. The choir and the men's club chorus rendered the vocal numbers. A pleasant social hour with refreshments and entertainment in the assembly room were also enjoyed after the service.

Value of Du Page Farm
Land Averages \$127 Acre

Farm and agricultural statistics recently released by the Bureau of Census reveal interesting comparisons between the four counties of DuPage, Will, McHenry and Kane.

There are 1270 farms in DuPage county valued at \$18,029,414. The average per acre is \$127.30, which is the highest in the four counties; Kane is next with an average acre value of \$108.02.

In DuPage the farms are small, the average being 111.5 acres and the average farm value being \$14,196. Will county has the largest number of farms, 3,284, and the farms there are largest in size.

However, the per acre valuation is the smallest of the four, \$86.94.

Baths for Elephants

A favorite spectacle in Ceylon is to be seen at Katungastota, where the elephants bathe. The beasts are working elephants and take a shower bath after each day's work. They provide their shower with their trunk.

GLENVIEW

EAST MAINE

The Royal Neighbors of America announce a Hard Times party, to be given in the Glenview Civic building, Thursday evening, Feb. 20. Prizes for the best costumes will be awarded. Dancing and refreshments have been provided.

Funeral services for the late Mrs. Nickolas Haupt were held from her home on Harrison street, Friday afternoon at 1:30. Mrs. Haupt was born in Germany 86 years ago as Johanna Melzer, coming to this country when quite young. After her marriage to Nickolas Haupt, residence was established in Glenview, where they have lived all of the time. Mrs. Haupt was one of the early settlers. Rev. George Winters of the Congregational church officiated, and quartette from the church sang two hymns. Burial was in Oakwood cemetery.

Mourning her loss are the husband, two sons, Edward and Joseph, and two daughters, Nora Melzer and Celia Ward, all residing in Glenview. There are also grandchildren, other relatives and many friends.

MISS Jeannette Rugen, daughter of Mr. and Mrs. Fred A. Rugen of Pine street, spent the week-end with her parents. Jeannette had come home on Friday to attend the funeral of her grandmother, Mrs. Nickolas Haupt.

Announcement was made on February 1 of the marriage of Mr. Russell Grenning, son of Mr. and Mrs. Matthias Grenning of Glenview, to Miss Mildred Mockus of Niles Center. The young couple were married in St. Peter's Evangelical church of Niles Center, and have taken an apartment in Niles Center. We extend them best wishes.

Announcement is also made of the marriage on Feb. 15, of Mr. Walton Seales, son of Mr. and Mrs. George Seales of McLean Court, to Miss Adeline Morton, second daughter of Mr. and Mrs. George Morton of Glenview avenue. These two young people have been a popular couple in the village for some time, and we extend them congratulations. They will reside in a small apartment above the Rugen stores.

The O. E. S. Girls club was entertained by Miss Florence Moeller of Northbrook Monday evening.

The Glenview Congregational church has called the Rev. W. Lewis Troyer of Chicago as minister. Rev. Troyer has been minister in Iowa for two years, and served the Cragin church of Chicago, two years. He and his family will move to Glenview in the near future.

Mr. and Mrs. J. N. Westbrook and Miss Lillie Palmgren attended the monthly meeting of the Chicago Congregational club Monday evening, held at the Union League club. The speaker was Mr. David Seaby whose topic was "How to Work Successfully."

The Valentine Card party, sponsored by the Order of the Eastern Star, was called off because of the severe weather. The party has now been scheduled for Friday night, March 13.

The Star club was entertained at the Glenview Recreation parlor on Waukegan road Tuesday afternoon. Games of 500 and bridge were played. Hostesses for the occasion were Mrs. Julia Fuhr, secretary of the club; Mrs. Jane Krumm, and Miss Lillie A. Palmgren.

The White Shrine, meeting at Des Plaines Masonic Temple, and to which a number of persons from Glenview belong, announced a shop suey supper to precede past officer's night, to be given in the Des Plaines Masonic Temple. Reservations must be in by February 19 if possible.

Bills for Broken
Door Awaits Owner of
Abandoned Car

Among the peculiarities of this wintry weather, was the case of the abandoned car found by Sheriff's Highway Police at Skokie and County Line roads Feb. 15. An investigation revealed that the car had contained three men who apparently had consumed a quantity of alcoholic beverages. Because no one answered their continued rapping on the door of the Skokie Gardens, they broke it. Mrs. Farenti, the proprietress, then admitted them and they immediately demanded a means of conveyance to the nearest railroad station. Rather than have the premises damaged the request was granted. The car is still being held and no doubt the damage done will be paid for, when the identity of the owner becomes known.

The Star club was entertained at the Glenview Recreation parlor on Waukegan road Tuesday afternoon. Games of 500 and bridge were played. Hostesses for the occasion were Mrs. Julia Fuhr, secretary of the club; Mrs. Jane Krumm, and Miss Lillie A. Palmgren.

POLITICAL DEPARTMENT

Challenge The Necessity of Republican Split

"Hornor For Governor Club Is Organized

At a well attended meeting of the voters of Wheeling township held Feb. 17, 1936, at their new headquarters, 169 E. Davis street, the Wheeling Township Hornor for Governor club was organized. The following officers were elected: Joseph Hinsberger, president. Oswald Meyer, vice president. Harvey F. Knox, secretary. Wm. G. Krueger, Jr., treasurer. All voters of Wheeling township interested in the candidacy of Governor Hornor, are cordially invited to join. Headquarters will be open every night, where you may obtain pledge cards, campaign literature, etc.

The efforts of an organization can only gain fruitful recognition by enjoying harmonious co-operation and united work. However, we are led to believe that only some individuals have the sole right to represent the voters by eliminating all other aspirants with their stories of unfaithful affiliations.

Mr. Elmer Sachs, our young and aggressive candidate for Wheeling Township Committeeman contends that there should be no local controversy, that the purpose of our Republican Organization is to further the principles of the Party, and to imbue the true outline of our program for the coming election of officers to represent us during the next four years. We hope that we will not be misled by rubber-stamp figures to influence our right in the primaries to vote according to our own dictates.

From all appearances, it seems that the Republican voters are not to be allowed their constitutional rights in choosing for themselves. If it is up to the voters to decide, then can they decide, since they are offered no choice, and only one man put up for the office? When another man throws his hat in the ring, he is coerced and bullied into quitting. If he scatters easy, by being told that he is disorganizing, and that if he persists, he will be shelled and snubbed as a Republican, and the only way he can get back into the good graces of the Organization, is to get off the band-wagon and apologize for daring to run.

It follows that a free-born eligible American, has to serve an apprenticeship of carrying water to the elephants, before he can aspire to public office. It has been the

Social Activity

The P. T. A. postponed their meeting which was to have been a prominent event this week on account of the extreme cold and bad ways of travel.

The "Neighborhood Group" met in the home of Mrs. Haake, the Scherf family home Tuesday afternoon this week. Brave were the few who were able to endure the cold to be present, but friendship makes our hearts warm and these friends realized sunny weather with their hospitable hostess, Mrs. Haake.

The Junior Aid of the Presbyterian church, met for their postponed Valentine party in the church hall Tuesday afternoon. The postponed date in no way detracted from the pleasure of the party and the jolly old St. Valentine didn't mind the belated missives sent. Mails are so uncertain these extreme cold days. We are sure our young friends had a merry party and all the better for a later date.

Dolores Rizzi with her mother arranged to give a party to twelve of her schoolmates Wednesday, Feb. 12, in her home on South Dunton avenue. Most pretty were the arrangements. Valentines were of the same sentimental nature, pretty expressions of the day ruled the party on the day when birds choose their mates. "Playmates meet partners" to choose and never dream of common prose.

Geraldine Schult was given a party in her home Feb. 12, Lincoln's birthday, assisted by her mother. This was happily made a truly patriotic affair, games, flags, slogan and a delightful party to honor na-

OBSERVER'S NOTES

Call not great Lincoln ignorant, Though not informed in college can, An education on the air He breathed from out God's everywhere; Science in all its primal truth, And nature's forces from his youth, The midnight skies beyond compare;

The clouds in storm for sooth, His teachers were, he well might spare,

Methods that are by schools set out With these great teachers all about, His inspiration and its force From knowledge's highest source, And through that source led him to

God and all poor humanity.

We decided last week in view of the waves of inept and too often condescendingly spoken words in regard to Lincoln, not to add our own unworthy tribute to the mass of words, words so often nothing but words.

Somewhat relenting, this week on the day of our greatest American's birthday, we cannot longer be silent. Today there are not so many who hold personal remembrance of Lincoln's time.

Some magnify our bad weather, our present day problems and especially we have been worried over the destruction of wild life from our region, yet even that has two sides to consider. Hastily the Tribune tells of a bounty paid to hunters for the slaughter of wolves in Lake county because of their stealing chickens from the farmers, twelve dollars is the bounty to be paid. A sure way to keep "the wolf from your door," henhouse door of course.

There is a prevalent feeling that every aspirant, whether endorsed by a machine or not, should have an EQUAL right to contend, and if such be the case, why not have harmony in our Organization, by recognizing not one, but other contenders.

Our Primaries are maintained from taxes and afford by proper election the choice of the people.

tion's greatest man, and make young citizens have a joyful time.

Just such a happy time as care-free children know how to enjoy and such party as right minded mothers know how to help them to enter into as one to think of our nations debt in honoring Lincoln.

Mrs. W. A. Meyer of West Fremont street entertained a company of ladies at a quilting party Thursday last week, and while the shiny steel needles flashed in and out, they seemed to be keeping time to the sharpned wits of those busy friends who enjoyed a merry flow of happy chatter. It proved a pleasant as well helpful afternoon for hostess and guests.

The home of Mr. and Mrs. John Schaeffer on South Dunton, the Scherf family home Tuesday afternoon when Mrs. Schaeffer had arranged a party for their son Francis and his pals to celebrate his birthday. You may be sure it was a jolly lot of pals that helped to make Francis know how old he was.

Several of our public school teachers meet for week-end conference and helpful talking over of experiences for mutual enjoyment and exchange of helpful hints, a strengthening the tie that binds.

The Sunshine club met last Thursday with Mrs. Edna Engleking. They enjoyed their usual pleasing program with plenty of sunshine and merriment all through the afternoon.

The Ideal club met with Mrs. F. H. Sachs this week in her apartment on the highway, not being a privileged member, I do know that any one who spent an hour or two with the hostess, Mrs. Sachs, would be assured of an ideal enjoyable afternoon. So we are certain the Ideal club enjoyed a happy time Wednesday night.

Friday, Valentine's day the home of Mrs. M. Mekan, was the scene of a cheery Valentine party. Games, cards and choice refreshments, a real chicken dinner was served to the queen's taste and it was a real heart warming party when this group of loyal genial friends met to recall good Saint Valentine. The following made up the number of guests Mrs. H. C. Kiehm, Mrs. Edward Volz, Mrs. Voss and Mrs. Bradbury.

POLITICAL DEPARTMENT

Challenge The Necessity of Republican Split

By F. G. NICHOLS
There certainly should be no reason why there must be two Republican Organizations in Wheeling township, merely because two or three candidates are running for the same office.

The efforts of an organization can only gain fruitful recognition by enjoying harmonious co-operation and united work. However, we are led to believe that only some individuals have the sole right to represent the voters by eliminating all other aspirants with their stories of unfaithful affiliations.

Mr. Elmer Sachs, our young and aggressive candidate for Wheeling township Committee, contends that there should be no local controversy, that the purpose of our Republican Organization is to further the principles of the Party, and to imbed the true outline of our program for the coming election of officers to represent us during the next four years. We hope that we will not be misled by rubber-stamp figures to influence our right in the primaries to vote according to our own dictates.

From all appearances, it seems that the Republican voters are not to be allowed their constitutional rights in choosing for themselves. If it is up to the voters to decide, how then, can they decide, since they are offered no choice, and only one man put up for the office? When another man throws his hat in the ring, he is coerced and bullied into quitting. If he scares easy, by being told that he is dis-organizing, and that if he persists, he will be shelled and snubbed as a Republican, and the only way he can get back into the good graces of the Organization, is to get off the band-wagon and apologize for daring to run.

It follows that a free-born eligible American, has to serve an apprenticeship of carrying water to the elephants, before he can aspire to public office. It has been the contention of the average citizen that they would interest themselves politically, such conditions would cease to exist.

One thing remains, if our local Republican headquarters is merely the campaign quarter for one candidate, it should be labeled as such, and not to masquerade as something else, merely to deceive the voters. As long as it is being called the Regular Republican Headquarters, no one man or his group of Republican boosters should be denied admittance, or to have any voice in any Regular Republican meeting, as their interest in their Party are just as filial and sincere as those who represent themselves as the ORGANIZATION.

There is a prevalent feeling that every aspirant, whether endorsed by a machine or not, should have an EQUAL right to contend, and if such be the case, why not have harmony in our Organization, by recognizing not one, but other contenders.

Our Primaries are maintained from taxes and afford by proper election the choice of the people.

tion's greatest man, and make young citizens have a joyful time.

The P. T. A. postponed their meeting which was to have been a prominent event this week on account of the extreme cold and blocked ways of travel.

The "Neighborhood Group" met in the home of Mrs. Haake, the Scherf family home Tuesday afternoon this week. Brave were the few who were able to endure the cold to be present, but friendship makes our hearts warm and these friends realized sunny weather with their hospitable hostess, Mrs. Haake.

The Junior Aid of the Presbyterian church, met for their postponed Valentine party in the church hall Tuesday afternoon. The postponed date in no way detracted from the pleasure of the party and the jolly old St. Valentine didn't mind the belated missives sent. Mails are so uncertain these extreme cold days. We are sure our young friends had a merry party and all the better for a later date.

Dolor's Rizzi with her mother arranged to give a party to twelve of her schoolmates Wednesday, Feb. 12, in her home on South Dunton avenue. Most pretty were the arrangements. Valentines were of the same sentimental nature, pretty expressions of the day ruled the party on the day when birds choose their mates "Playmates meet partners" to choose and never dream of common prose.

Geraldine Schuld was given a party in her home Feb. 12, Lincoln's birthday, assisted by her mother. This was happily made a truly patriotic affair, games, flags, slogans and a delightful party to honor nature.

"Hornor For Governor Club Is Organized

At a well attended meeting of the voters of Wheeling township held Feb. 17, 1936, at their new headquarters, 109 E. Davis street, the Wheeling Township Horner for Governor club was organized. The following officers were elected:

Joseph Hinsberger, president.
Oswald Meyer, vice president.
Harvey F. Knox, secretary.
Wm. G. Krueger, Jr., treasurer.
All voters of Wheeling township interested in the candidacy of Governor Horner, are cordially invited to join. Headquarters will be open every night, where you may obtain pledge cards, campaign literature, etc.

Regular meeting nights Monday or each week at headquarters, 109 E. Davis street, Arlington Heights. Phone 1484.

OBSERVER'S NOTES

Call not great Lincoln ignorant, Though not informed in college eant.

An education on the air He breathed from out God's everywhere; Science in all its primal truth, And nature's forces from his youth, The midnight skies beyond compare;

The clouds in storm for sooth, His teachers were, he well might spare, Methods that are by schools set out With these great teachers all about, His inspiration and its force.

From knowledge's highest source, And through that source led him to see,

God, and all poor humanity.

We decided last week in view of the waves of inept and too often condescendingly spoken words in regard to Lincoln, not to add our own unworthy tribute to the mass of words, words so often nothing but words.

Some what relenting, this week on the day of our greatest American's birthday, we cannot longer be silent. Today there are not so many who hold personal remembrance of him.

Some magnify our bad weather, our present day problems and especially have we been worried over the destruction of wild life from our region, yet even that has two sides to consider. Hastily the Tribune tells of a bounty paid to hunters for the slaughter of wolves in Lake county because of their depredations upon the farmers, twelve dollars is the bounty to be paid. A sure way to keep "the wolf from your door," henhouse door of course.

Some years ago, a premium was offered in Illinois for the heads of crows and when the farmers discovered that crows were destroying a certain grub or insect that was destroying their corn, they petitioned the removal of premiums on the killing of crows. "Quoth the Raven, nevermore."

Here comes the story from Oklahoma that hundreds of crows are destroying farmer's crops in the region of Tulsa. In the same paper the story of a banquet served to the elite college professors and their ilk, where the dish par-excellence was roast crow, pronounced the most delicious of our game birds. "Long live the crow."

Well, why not, corn fed crows fowl? Our old pet Jack Crow would drive the hens away to devour their food any old day. Then if crow make such excellent food, why do they value them at any rate they are now to be placed as game birds. Now, who will give the first crow dinner? Leaving that to your movements, let me assure that Tulsa crow dinner tale was "nothing but the truth" moreover crow used to be considered proper diet for defeated politicians.

Do you remember way back when folks who planned to take the nine o'clock train, had to sit and wait for it until ten or vice versa. Lay our mental mixup, our arrested mental mentality to the depression. World war or the woman appearing in man's attire. This person believes Daylight Saving Time had much to do with our unbalance than anything else.

Heard a high official talking on the subject of our adopting Eastern Standard Time. He is very learned, and he told that where it was now in rule in one (year or month, forget which) they had saved thirty minutes which meant again to business of over a million dollars. Shades of Joshua, what a head that man had.

The days are growing long again, The daylight saving fad break out;

They want to put that earlier train An hour earlier without doubt.

When days are growing long again Is it not just a bit absurd?

Where will you profit, what the gain

If you should beat the early bird.

Since days are growing long again, Are they not growing long enough

If the sun shines, or if it rain Why ring in Daylight saving stuff?

We're glad the days grow long again,

Equally longer at each end,

Changing your clocks end in vain

Sunrise and sunset don't pretend.

The days are growing long again,

Are they not growing long enough

If the sun shines, or if it rain Why ring in Daylight saving stuff?

We're glad the days grow long again

Equally longer at each end,

Changing your clocks end in vain

Sunrise and sunset don't pretend.

The days are growing long again,

Are they not growing long enough

If the sun shines, or if it rain Why ring in Daylight saving stuff?

We're glad the days grow long again

Equally longer at each end,

Changing your clocks end in vain

ROUGH AND TUMBLE GAME AT PALATINE

Leyden Adds Another Victory; Palatine Lights In 19-13 Win.

Palatine and Leyden divided a double bill Tuesday on the Palatine court. The Pirates won the lightweight game 19-13 for their eighth victory in 10 games. The Leyden regulars emerged victorious 21-16 in a rough contest featured by poor shooting on both sides.

The Pirates lights grabbed the lead early in the first quarter and were never in danger. Their floor play was much superior to Leyden's but their basket shooting was below par. The first period score was 4-3 which was increased to 11-5 at the half. At the three quarter mark the count was 15-9. O'Brien was high scorer with eight points. This was the seventh straight victory for Palatine.

Leyden was in front 5-1 in the heavyweight game at the quarter and 10-7 at the half. The count was 16-11 starting the last period. Palatine missed numerous short shots, but so did Leyden. The Pirates hit five baskets in 38 shots. The playing was particularly rough in the last half. Kruse continues to lead the scoring for recent games with a total of eight points in this contest. Kruse has 20 points in the last three games. The Pirates played much better ball than last week against Ela. Matuske, as usual, was the Leyden star.

It Never Rains, But It Pours, in School Dist. 17

School district No. 17, three miles west of Palatine, has a normal enrollment of nearly fifty children, necessitating half day sessions with one teacher in charge of both groups. It is the fastest growing school district in Cook county, thought the board of directors when recently a new family moved in with eleven children, of which nine entered the school, raising the enrollment to nearly sixty. The school book problem is also very acute.

District 17 has no thought of adopting the rule of some Chicago apartments, "no children," but they do wish that the real estate salesmen would pick out smaller families.

IF A FARMER SELLS A HORSE AND LATER WARANTS IT TO BE SOUND, IS THE WARRANTY BINDING? (See answer below.)

NECESSARY TREATMENTS Ring worm or "Athlete's foot" as well as Verucca or "Planter wart" are extremely contagious, therefore require immediate and proper treatment. Complete treatments given. Come in at once.

NO EXAMINATION CHARGE

Answer: It is not binding if there was no further consideration for the warranty.

OFFICE HOURS: Mon., Tues., Thurs., 7:30 to 10 p.m. Open All Day Friday 9 a.m. to 10 p.m.

POSTPONED GAMES

Owing to the fact that many of the basketball games scheduled in the Northwest conference, were either postponed or forfeited, it is impossible to give the exact standings of the individual teams.

Arlington and Niles Center Play Close Game

Arlington came very close to winning from Niles Center last Saturday night, the best game played on the local floor this year. However a couple of slips on defense in the closing minutes kept them from coming through with a win.

Both teams played good offensive ball, but were weak defensively. The Arlington lineup was changed somewhat. Allen and Grismer were moved up from the lights for a tryout with the heavies and fared well. Somewhat bewildered by the difference between their previous lightweight play and that encountered in the heavy lineup they soon steadied down and played good ball.

However, Capt. Johnson and Annen, as usual, did the heavy scoring. Kopplin has improved his play considerably and but for a bad two minutes at the very end of the game would have turned in a stellar performance.

Arlington, 35; Niles Center, 33.

The lightweights gave the spectators a real thrill when they put on a driving finish to nose out Niles Center by two points. An early Arlington lead of five points was almost erased as Niles rallied in the first quarter. The Arlington reserves were given a quarter in which to display the stuff that has brought them victories in several recent Frosh-Soph games. They were unable to hold down the fast-breaking visitors. The score at the half-time intermission was 23-11 for Niles Center. The return of the starting line-up in the third quarter brought a determined attack which scored twenty-four points and victory. Niles was held to seven points in the third and three in the fourth quarter. Arlington scored twelve in each, and for the sake of consistency made it four free throws and four baskets in each period.

Schneberger was the outstanding scorer with four baskets and five free throws. He was fouled repeatedly by desperate guards as he broke loose near the basket. Weisgerber and Dearie, replacing Grismer and Allen, who had been moved to the heavyweight squad, fitted in well with their new mates. Weisgerber worked effectively under the basket and collected two field goals. Dearie played with plenty of snap and skill. He hit twice on quick flips from well out and made one free throw. For Niles Center Kluesing and Huels were outstanding. The former did some phenomenal shooting in the first half when he hit four baskets in five shots, mostly long. Huels made five baskets but required twenty-five heaves at the goal to get that number.

The Pirate lights were ahead 8-1 at the quarter, 13-4 at the half and 22-8 at the end of the third period. With two minutes to play Palatine started a stalling game which gave Werner opportunity for three field goals in quick succession.

The Pirate heavies were off to a good start with a lead of 8-4 just a minute before the close of the half, but allowed Leuthesser to sink two baskets and tie the count at 8-8. Palatine failed to score in the third period while Ela ran the count to 13. Kamm was lost on fouls at the start of the last period.

Decidedly off in their shooting, the Pirates caged only five baskets in 46 shots. The exception to the general run of shooting was the work of Harry Kruse, who made more than half the points with four field goals. The other basket was scored by Kraft, who made all four of his free throw attempts good.

The only point not scored by these two was a free throw by Bretsnyder.

The Ela star was Leuthesser, a clever sophomore, who is one of the best players in the league. He contributed 11 points to the Ela total. Lightweights

ROUGH AND TUMBLE GAME AT PALATINE

Leyden Adds Another Victory; Palatine Lights In 19-13 Win.

Palatine and Leyden divided a double bill Tuesday on the Palatine court. The Pirates won the lightweight game 19-13 for their eighth victory in 10 games. The Leyden regulars emerged victorious 21-16 in a rough contest featured by poor shooting on both sides.

The Pirate lights grabbed the lead early in the first quarter and were never in danger. Their floor play was much superior to Leyden's but their basket shooting was below par. The first period score was 4-3 which was increased to 11-5 at the half. At the three quarter mark the count was 15-9. O'Brien was high scorer with eight points. This was the seventh straight victory for Palatine.

Leyden was in front 5-1 in the heavyweight game at the quarter and 10-7 at the half. The count was 16-11 starting the last period. Palatine missed numerous short shots, but so did Leyden. The Pirates hit five baskets in 38 shots. The playing was particularly rough in the last half. Kruse continues to lead the scoring for recent games with a total of eight points in this contest. Kruse has 20 points in the last three games. The Pirates played much better ball than last week against Ela, Matuske, as usual, was the Leyden star.

It Never Rains, But It Pours, in School Dist. 17

School district No. 17, three miles west of Palatine, has a normal enrollment of nearly fifty children, necessitating half day sessions with one teacher in charge of both groups. It is the fastest growing school district in Cook county, thought the board of directors when recently a new family moved in with eleven children, of which nine entered the school, raising the enrollment to nearly sixty. The school book problem is also very acute.

District 17 has no thought of adopting the rule of some Chicago apartments, "no children," but they do wish that the real estate salesmen would pick out smaller families.

POSTPONED GAMES

Owing to the fact that many of the basketball games scheduled in the Northwest conference, were either postponed or forfeited, it is impossible to give the exact standings of the individual teams.

Arlington and Niles Center Play Close Game

Arlington came very close to winning from Niles Center last Saturday night, the best game played on the local floor this year. However a couple of slips on defense in the closing minutes kept them from coming through with a win.

Both teams played good offensive ball, but were weak defensively. The Arlington lineup was changed somewhat. Allen and Grismer were moved up from the lights for a tryout with the heavies and fared well. Somewhat bewildered by the difference between their previous lightweight play and that encountered in the heavy lineup they soon steadied down and played good ball.

However, Capt. Johnson and Allen, as usual, did the heavy scoring. Kopplin has improved his play considerably and but for a bad two minutes at the very end of the game would have turned in a stellar performance.

Arlington, 35; Niles Center, 33.

The lightweights gave the spectators a thrill when they put on a driving finish to nose out Niles Center by two points. An early Arlington lead of five points was almost erased as Niles rallied in the first quarter. The Arlington reserves were given a quarter in which to display the stuff that has brought them victories in several recent Frosh-Soph games. They were unable to hold down the fast-breaking visitors. The score at the half-time intermission was 23-11, for Niles Center. The return of the starting line-up in the third quarter brought a determined attack which scored twenty-four points and victory. Niles was held to seven points in the third and tied in the fourth quarter. Arlington scored twelve in each, and for the sake of consistency made it four free throws and four baskets in each period.

Schneberger was the outstanding scorer with four baskets and five free throws. He was fouled repeatedly by desperate guards as he broke loose near the basket. Weisgerber and Dearie, replacing Grismer and Allen, who had been moved to the heavyweight squad, fitted in well with their new mates. Weisgerber worked effectively under the basket and collected two field goals. Dearie played with plenty of snap and skill. He hit twice on quick trips from well out and made one free throw. For Niles Center Kluesing and Fuels were outstanding. The former did some phenomenal shooting in the first half when his four baskets in five shots, mostly long. Fuels made five free baskets but required twenty-five heaves at the goal to get that number.

C. A. C. To Play Montgomery Ward Girl's Team

There will be three games Wednesday, Feb. 26, at the high school gym deserving of the attendance of every person wishing to give the young people of Arlington Heights a "hand."

The curtain raiser, at 7:30, will feature the Presbryterian senior girls against the juniors. The second will be a hotly contested match between the Lutheran boy's team and a new Arlington team composed of recent high school players.

The third game, the headliner of the evening, will be between the C. A. C.'s and the Montgomery Ward Girls, who, at present, are leading one of the best leagues in the city.

Don't forget, Wednesday, February 26, at the high school gym. Admission, 10c.

A Snow Story

The prize story of the snow we've had seems to be about the fellow who picked up a hat only to find the head of a man slightly protruding from the snow. Starting to pull and tug at the distressed man, his would-be rescuer asked the fellow if he could help himself a bit in getting out of the snow and the poor chap replied that he couldn't because his feet were stuck in the saddle stirrups of the horse he was astride.

The great question in international affairs is whether England will crack down if Italy doesn't back down.

Can you tell a bigger one?

There Is a Deep Sense of Satisfaction

Col. Frank Knex, prominently mentioned as a Republican Presidential possibility, who has just completed a speaking tour of the Midwest, the East and New England, during which he vigorously attacked government extravagances and declared for a balanced budget, stabilized currency and lowered taxes.

"THEY GAMBLED WITH DEATH"

There is a blanket over the man in the front seat of this auto. Fifteen minutes ago he was speeding along a smooth concrete road, with three girls beside him. They all worked during the day and gave most of their earnings to help their families.

What happened?

An approaching motorist said he saw the lights of the fast sedan disappear behind a lumbering truck.

The driver of the truck said he

felt a sudden smash in the rear. Those most concerned, the man and the three girls, said nothing—they were all dead when the door of the sedan was opened.

Swift and unexpected as was the crash, a look of terror had become fixed on the girls' faces, although they probably never felt the fractured skulls, the crushed-in chests and lacerated limbs that were found when the wreckage was pulled apart to release them.

This is one of a series of actual happenings from the accident investigation files of the Liberty Mutual Insurance Company.

COMING AUCTIONS

H. C. HEINE sale postponed till an early date in March. Exact date announced later.

E. H. Moellenbrandt Sale Postponed to Feb. 21

Friday, Feb. 21, at 12 o'clock, E. H. Moellenbrandt will sell at public auction on the farm formerly known as the Fasse farm, 2 miles north of Medinah, 1 mile south of Higgins road, the following property:

Livestock

17 head choice dairy cows, 5 with calves by side, balance milkers; 4 heifers; Durham stock bull; 5 head good horses.

Machinery

Grain binder; corn binder; mower; hay rake; corn planter; spreader; disk harrow; 2-seed harrow; hay rack and wagon; low wheel wagon; 2-row and 1 single row cultivators; 2 set double harness and many other articles too numerous to mention.

Cheap Feed Favors Horses for Farm Work This Year

Spring field work will open in Illinois this year with cheap feed giving horses an edge as a source of economical farm power, according to E. T. Robbins, livestock extension specialist of the College of Agriculture, University of Illinois. Of all sections of the state southern Illinois will be in the best position to take advantage of this situation, because farmers there have stuck closer to horses during the depression years, he said.

Indications of ample acreages of crops with less than the usual livestock numbers probably mean that feed will continue to be relatively lower priced than livestock. Consequently farmers who use horses for their field work will have the advantage of low cash costs for operation, he said.

Southern Illinois has practically as many horses and colts on farms as five years ago, northern Illinois has nearly as many, but the central part of the state has had a marked decrease in numbers, according to the new census figures. About 40 counties comprising the southern two-fifths of the state east of the Illinois river and south of a line extending somewhat irregularly from Beardstown to Paris now average about 99 per cent of the horses that they had five years ago. North of this line is a belt of about 30 counties extending across the state in which there are only about 85 per cent as many horses as five years ago. This central belt is bounded on the north by a line extending irregularly from Keokuk, Iowa, through Mendota, Dwight and Hooperston. North of this line is a group of about 30 counties in which there are about 95 per cent as many horses as five years ago.

Texas Decorates Grave of Vice President Dallas

MISS MABEL ROOKS, left, and Miss LaVee Kilman, Texas rangerettes, placing the wreath which they brought to Philadelphia by plane from Dallas, Texas, on the grave of George M. Dallas, vice president of the United States under President Polk from 1845 to 1849. Dr. Edward M. Jeffries, director of St. Peters church, and Mayor Hampton J. Moore of Philadelphia are watching the rangerettes. The ceremony was part of the Texas Centennial celebrations. Vice President Dallas played an important part in the annexation of the Texas republic as a state.

Two "Featherweight" Champions

FAIREST of fowl are these two proud champions. The tiny silver bantam pullet, smallest at the New York Poultry show, "throws its chest out" with pride, standing beside a white Wyandotte cock, grand champion and largest at the show. In spite of the difference in size, they are both "featherweight" champions.

Three-Quarters-Century Ball Game

DOWN in sunny St. Petersburg, Fla., the Three-Quarters-Century club is in its baseball season of four months, games being played twice a week. No man under seventy-five years of age is allowed to play. In the picture, left to right, are: Charles W. (Pop) Eldridge, one hundred and four, of Worcester, Mass., umpire; M. B. Fribi, eighty-six, of Bowling Green, Ohio, and A. T. (Casey) Nichols, seventy-six, the youngest man on the team, batting.

The Luxury of Crime

By DOUGLAS MALLOCH

THE taxbill's here (it comes each year along about this time), a bill for what? Well, quite a lot will go to pay for crime. No goods we take, no laws we break, no evil path pursue, we tote no guns—we're just the ones who pay for those who do.

We need no bail, police or jail, no courthouse on the square. Where men are tried, but those outside must pay for people there. In cells they sit and do their bit and think it quite a chore, And put away three meals a day that we are paying for.

We're just the great (in ev'ry state) majority of men Who day and night live fairly right, without police or pen.

We need no laws or courts, because we never climb a wall—

We could go from dawn to dawn without a law at all.

In mills we toil, or plow the soil, a living try to win,

Give little time to thoughts of crime

—and then the bill comes in. I sometimes think that those who wink at crime have failed to see,

To folks like us who labor thus, it's just a luxury.

Milk Has Essential Food Materials

By ADELAIDE SPOHN, Ph. D., Nutritionist of the Elizabeth McCormick Memorial Fund and Director of Nutrition Service, Illinois Emergency Relief Commission.

NUTRITIONISTS advise that one-fifth of the average family's food budget should be spent for milk. At first glance, perhaps, this proportion seems a trifle large, but on second thought one can readily see the wise economy of this allotment.

To begin with, there are certain food materials that the body requires every day in order to build and maintain good health. These materials are protein for the repair of body tissues, calcium for building bones and teeth, phosphorus for assisting the protein and calcium, iron to make the red blood cells, and vitamins to help preserve the teeth and to prevent certain diseases such as scurvy, pellagra, and beri-beri.

It is indeed worthy of note that milk contains four of the five food materials listed—protein, calcium, phosphorus, and the Vitamins A, B and G. Following is a list of the foods which are considered good sources of each of these materials.

PROTEIN—milk, meat, fish, eggs, cheese, beans, nuts.

CALCIUM—milk, cheese, beans, molasses, and some fruits and vegetables.

PHOSPHORUS—milk, meat, eggs, fish, cheese, beans, nuts, whole cereals.

IRON—eggs, whole-grain cereals and breads, vegetables, fruits, lean meat, potatoes, molasses, liver.

VITAMINS—Vitamin A—cod liver oil, milk, butter, cream, eggs, cheese, green leaf vegetables, fruits and vegetables.

Vitamin B—dried beans, whole cereals, yeast, milk, fruits and vegetables.

Vitamin D—cod liver oil, certain other oils, irradiated foods.

Vitamin G—milk, eggs, fruits and vegetables, yeast, meat.

Because it contains such a large amount of the body's needs, because for a small amount of money one gets a quart of "Nature's most nearly perfect food," because there is no waste in using it, because of the ease of serving and many other foods with which it can be used, milk should have an important place in everyone's diet.

Three days without heat, but again when we get it

In living room, dining room, bedroom, I bet it

Will make us appreciate that simple blessing

We took without thinking or doubting or guessing.

I haven't a doubt there is many a pleasure

Our hearts never feel and our minds never measure

We have all along without thinking about it.

(We would, if we had to go three days without it.)

"Little Stories for Bedtime"

by Thornton W. Burgess

THE HUNTING SEASON ENDS

THE very worst things come to an end at last. No matter how bad a thing is, it cannot last forever. So it was with the hunting season for Lightfoot the Deer. There came a day when the law once more protected all deer, a day when the hunters could no longer go searching for Lightfoot.

Usually there was great rejoicing among the little people of the Green Forest and the Green Meadows when the hunting season ended and they knew that Lightfoot

three days Lightfoot had not visited his pond for a drink, Billy Mink, who travels up and down the Laughing Brook, had looked for Lightfoot's footprints in the soft earth along the banks and had found only old ones. Jumper the Hare had visited Lightfoot's favorite eating places at night, but Lightfoot had not been in any of them.

"I tell you what it is," said Sammy Jay to Bobby Coon, "something has happened to Lightfoot. Either those hounds caught him and killed him or he was shot by one of those hunters. The Green Forest will never be the same without him. I don't think I shall want to come over here very much. There isn't one of all the other people who live in the Green Forest who would be missed as Lightfoot will be."

Bobby Coon nodded. "That's true, Sammy," said he. "Without Lightfoot the Green Forest will never be the same. He never harmed anybody. Why those hunters should have been so anxious to kill one so beautiful is something I cannot understand. For that matter, I don't understand why they want to kill any of us. If they really needed us for food it would be a different matter, but they don't. Have you been up in the Old Pasture and asked Old Man Coyote if he has seen anything of Lightfoot?"

Sammy nodded. "I've been up there twice," said he. "Old Man Coyote has been lying very low during the days, but nights he has done a lot of traveling. You know, Old Man Coyote has a mighty good nose, but not once since the day those hounds chased Lightfoot has he found so much as a tiny whiff of Lightfoot's scent. I thought he might have found the place where Lightfoot was killed, but he hasn't, although he has looked for it. Well, the hunting season for Lightfoot is over, but I am afraid it has ended too late."

© T. W. Burgess.—WNU Service.

THROUGH A Woman's Eyes

By JEAN NEWTON

WAIT—AND SEE

"IF THERE is one word in the dictionary that is invaluable in all the daily affairs of life," writes one of our readers, "it is the word 'wait.' And we might add and see!"

And she proceeds to tell me of the most recent experience of her impulsive sister, in which she lost sleep, strength and considerable amount of money by "going off the handle," by jumping at the most unfavorable conclusion in an important matter, and immediately acting on it. Not only, says our reader, was the experience a great practical loss, but her sister "lost face" to such an extent that it is doubtful if she can recover her standing in the community. That is all that I am permitted to publish about the matter. But it will serve the purpose our reader desires of making a point of what she calls "the absolutely tragic habit" of not being able to wait and see.

And we are grateful for the suggestion. The importance of being able to wait and see cannot be overestimated.

We have all seen women embarrassed by anger at the act of a friend which subsequently turned out to be entirely innocent. We have seen them wear themselves out in resentment, lose strength and nervous energy, on a hasty conclusion which soon proved to have been entirely unfounded. We have seen them waste time and money and lose "face" through hasty action at such times.

It is amazing how many things that upset us will adjust themselves beautifully if given a little time. Misunderstanding is cleared up, motives clarified, and the necessity to "do something" resolved into thin air, by just stopping to "wait and see."

ROLY POLY GOLF BALL

© Bell Syndicate.—WNU Service.

O

THIS is a dinner table trick that will startle all who witness it. The feat is performed with an ordinary golf ball, which the magician places on the table.

Making mysterious passes, he causes the ball to roll along the tablecloth, traveling in a most uncanny fashion. Anyone may lift the ball and examine it.

The motive power is furnished by a strong thread that runs beneath the tablecloth. On the end of the thread is a small metal ring, which the tablecloth hides. It is upon this hidden ring that the wizard places the golf ball.

While his right hand makes its mystic passes, the magician uses his left to draw the thread, which makes the ball roll in a most natural fashion. The trick is made most effective by having a confederate pull the thread from the opposite side of the table. In this case the ball will roll away from the magician.

What Do You Know About Health?

By FISHER BROWN and NAT FALK

WHO WAS WILLIAM HARVEY?
2. HOW WAS BUTTER USED BY THE ANCIENT ROMANS?
3. DOES SMOKING BEFORE BREAKFAST HAVE ANY EFFECT ON HEALTH?

Answers: 1. An English physician who discovered the circulation of the blood. He was born in 1578 and died in 1650.

2. The Romans buttered as a food. They liked it so well they even

used it on the outside of the body to heal wounds.

3. Scientists recently have discovered that smoking before breakfast may be one cause of ulcers of the stomach, a serious disease.

WE DRIVERS

A Series of Brief Discussions on Driving, Dedicated to the Safety, Comfort and Pleasure of the Motoring Public. Prepared by General Motors

No. 7—SLIPPERY WEATHER

ICE AND SNOW always bring problems for drivers. These problems are the result of less friction. And that is interesting, because usually we are trying to reduce friction all we can. We use ball and roller bearings to overcome friction. We smooth and polish parts to reduce friction. We put oil in our cars to avoid friction. But we can't get along without friction, just the same.

PAPA KNOWS-

THREE DAYS WITHOUT HEAT

By DOUGLAS MALLOCH

THREE days without heat, while they're fixing the furnace. And so in the kitchen each day we intern us. Or sit by the fireplace and pile on the splinters. Not much like the cordwood of old-fashioned winters. Three days without heat, and the family shivers. Or late in the morning still clinging to the kivers. And all because something unknown, unsuspected, Went wrong—that a gleeful young salesman detected.

And yet the unfortunate, woe at its summit, Are those who have trouble and learn nothing from it. The greatest misfortune, whatever our sorrow, Is, having it, not to be wiser tomorrow. When furnaces fail, or when anything falters, Let's hope that our viewpoint accordingly alters. Experience teaches us, children or father. Some truth that repays us for all of our bother.

Three days without heat, but again when we get it. In living room, dining room, bedroom, I bet it Will make us appreciate that simple blessing. We took without thinking or doubting or guessing. I haven't a doubt there is many a pleasure. Our hearts never feel and our minds never measure. We have all along without thinking about it. (We would, if we had to go three days without it).

Milk Has Essential Food Materials

By ADELAIDE SPOHN, Ph. D., Nutritionist of the Elizabeth McCormick Memorial Fund and Director of Nutrition Service, Illinois Emergency Relief Commission.

NUTRITIONISTS advise that one-fifth of the average family's food budget should be spent for milk. At first glance, perhaps, this proportion seems a trifle large, but on second thought one can readily see the wise economy of this allotment.

To begin with, there are certain food materials that the body requires every day in order to build and maintain good health. These materials are protein for the repair of body tissues, calcium for building bones and teeth, phosphorus for assisting the protein and calcium, iron to make the red blood cells, and vitamins to help preserve the teeth and to prevent certain diseases such as scurvy, pellagra, and beriberi.

It is indeed worthy of note that milk contains four of the five food materials listed—protein, calcium, phosphorus, and the Vitamins A, B and G. Following is a list of the foods which are considered good sources of each of these materials.

PROTEIN—milk, meat, fish, eggs, cheese, beans, nuts, CALCIUM—milk, cheese, beans, molasses, and some fruits and vegetables.

PHOSPHORUS—milk, meat, eggs, fish, cheese, beans, nuts, whole cereals.

IRON—eggs, whole-grain cereals and breads, vegetables, fruits, lean meat, potatoes, molasses, liver.

VITAMINS—Vitamin A—cod liver oil, milk, butter, cream, eggs, cheese, green leaf vegetables, fruits and vegetables.

Vitamin B—dried beans, whole cereals, yeast, milk, fruits and vegetables.

Vitamin D—cod liver oil, certain other oils, irradiated foods.

Vitamin G—milk, eggs, fruits and vegetables, yeast, meat.

Because it contains such a large amount of the body's needs, because for a small amount of money one gets a quart of "Nature's most nearly perfect food," because there is no waste in using it, because of the ease of serving and many other foods with which it can be used, milk should have an important place in everyone's diet.

"Little Stories for Bedtime" by Thornton W. Burgess

THE HUNTING SEASON ENDS

THE very worst things come to an end at last. No matter how bad a thing is, it cannot last forever. So it was with the hunting season for Lightfoot the Deer. There came a day when the law once more protected all deer, a day when the hunters could no longer go searching for Lightfoot.

Usually there was great rejoicing among the little people of the Green Forest and the Green Meadows when the hunting season ended and they knew that Lightfoot

"I Tell You What It Is," Said Sammy Jay to Bobby Coon, "Something Has Happened to Lightfoot."

would be in no more danger until the next hunting season. But this year there was no rejoicing. You see, no one could find Lightfoot. The last seen of him was when he was running for his life with two hounds baying on his trail and the Green Forest filled with hunters watching for a chance to shoot him.

Sammy Jay had hunted everywhere through the Green Forest, Blacky the Crow, whose eyes are quite as sharp as those of Sammy Jay, had joined in the search. They had found no trace of Lightfoot. Paddy the Beaver said that for

THROUGH A Woman's Eyes

By JEAN NEWTON

WAIT—AND SEE

"IF THERE is one word in the dictionary that is invaluable in all the daily affairs of life," writes one of our readers, "it is the word 'wait.' And we might add 'and see!'

And she proceeds to tell me of the most recent experience of her impulsive sister, in which she lost sleep, strength and a considerable amount of money by "going off the handle," by jumping at the most unfavorable conclusion in an important matter, and immediately acting on it. Not only, says our reader, was the experience a great practical loss, but her sister "lost face" to such an extent that it is doubtful if she can recover her standing in the community. That is all that I am permitted to publish about the matter. But it will serve the purpose our reader desires of making a point of what she calls "the absolutely tragic habit" of not being able to wait and see.

And we are grateful for the suggestion. The importance of being able to wait and see cannot be overestimated.

We have all seen women embarrassed by anger at the act of a friend which subsequently turned out to be entirely innocent. We have seen them wear themselves out in resentment, lose strength and nervous energy, on a hasty conclusion which soon proved to have been entirely unfounded. We have seen them waste time and money and lose "face" through hasty action at such times.

It is amazing how many things that upset us will adjust themselves beautifully if given a little time. Misunderstanding is cleared up, motives clarified, and the necessity to "do something" resolved into thin air, by just stopping to "wait and see."

It is amazing how many things that upset us will adjust themselves beautifully if given a little time. Misunderstanding is cleared up, motives clarified, and the necessity to "do something" resolved into thin air, by just stopping to "wait and see."

What Do You Know About Health?

By FISHER BROWN and NAT FALK

Answers: 1. An English physician who discovered the circulation of the blood. He was born in 1578 and died in 1650.

2. The Romans prized butter as a food. They liked it so well they even

used it on the outside of the body to heal wounds

3. Scientists recently have discovered that smoking before breakfast may be one cause of ulcers of the stomach, a serious disease.

WE DRIVERS

A Series of Brief Discussions on Driving, Dedicated to the Safety, Comfort and Pleasure of the Motoring Public. Prepared by General Motors

No. 7—SLIPPERY WEATHER

ICE and SNOW always bring problems for drivers. These problems are the result of less friction. And that is interesting, because usually we are trying to reduce friction all we can. We use ball and roller bearings to overcome friction. We smooth and polish parts to reduce friction. We put oil in our cars to avoid friction. But we can't get along without friction, just the same.

For, after all, we couldn't start a car, we couldn't stop a car, we couldn't turn a corner, if it weren't for friction. The friction between the road and our rubber tires is what gives us traction.

Most of the time we have plenty of traction. But in certain climates every year, winter comes blowing and blustering down from the North, and the first thing we know is how it spreads ice and snow over our roads, and our whole traction condition is changed.

But automobiles are pretty well prepared these days to meet any conditions. All we have to do is to adjust ourselves to these changed circumstances.

For instance, many skillful drivers start their cars in high gear on very slippery, icy streets. Ordinarily this would be a bad thing to do. But when our tires have to start us going on slippery ice or snow, starting in second or "high" is harmless and it does help to avoid spinning wheels, side slipping and difficulty in getting under way. If you haven't tried this after stopping at intersections, you may be surprised to find out how much more quickly you get started again. Only remember to engage the clutch very slowly.

This business of starting in slippery weather can be quite a problem. But stopping is even more so. However, most good drivers agree on one method that they find quite satisfactory. First of all they begin to slow their cars down at quite a distance from where they want to stop. They press the brake lightly at first and release it almost at once. Then they press again and release quickly. By a series of brief, moderate brake actions, instead of one continuous pressure, they gradually reduce speed and can usually stop without skidding.

Many of the best drivers always make it a point not to disengage the clutch as soon as they apply their brakes, but to wait until the car has almost stopped. While this is their general practice, they say it is especially important on slippery roads, as they claim it reduces the chances of skidding. But if we use this method there is one thing we must look out for. We have to remember that on a slippery surface it is very easy to stall our engine by using our clutch when the clutch is still engaged.

Outside of starting and stopping, most winter skidding is at turns and curves. Many good drivers tell us that they treat every slippery curve or turn as though it were going to be a stop. In other words, they approach curves using the very same system of short, moderate brake actions. The result is that when they reach the curve they are going so slowly that they can actually give the engine a little gas and put some power in the wheels. With power turning the wheels, we are not so likely to skid.

After all, the main thing to do about driving in slippery weather is just what we do about walking in slippery weather. We are all pretty careful about that. The first thing most of us do when we go out on a slippery morning is to put out one foot cautiously and get the feel of the surface to see how careful we have to be. The best drivers we know do practically the same thing with their cars. The first thing they do after they get started, is to test the surface. They make sure that there are no cars too near, and then they gently apply the brakes. If they don't skid they resume speed and apply the brakes again—this time a little more firmly.

In this way they determine the surface and know the degree of caution they must exercise to be safe. This seems like a very sensible idea.

Constitutional Money Should Pay Bonus and Farm Relief, Says Mitchell

To the Congress of the United States:

We must have constitutional money—legal tender government notes in sufficient quantities to relieve financial distress when and where there is good security and sufficient to restore the value of the property of the people of the U. S. as measured in money to the 1929 standard.

A system of money that expands and contracts according to the needs for money is not "inflation"—all the lying politicians and newspapers that are motivated by self interests, know this.

It is a well known fact that there never was a legal tender government note that ever shrank in its purchasing power below par. The Continental money was not a legal tender, and as the colonies were unable to redeem it in silver (or gold), it shrank during eight years so gradually in thousands of turnovers that no one suffered loss, but was benefited through having a medium of exchange. The amount issued was so small as compared with the wealth of the colonies, that its loss did not amount to much. The loss of our \$6,000,000,000 of money would be small as compared with the shrinkage of \$300,000,000,000 in the value of property since 1929.

The greenbacks that shrank in value were hamstrung by having exceptions printed on them.

My observations prove to me that four out of five voters in this part of the country favor the "National Union for Social Justice" money reform.

I would like to say several things, but this much I will say, that all you fellows who vote against issuing legal tender treasury notes to pay the bonus, farm relief, other relief, and expenses of government to the extent mentioned above in this article will be forced to "walk the plank" and make a dive into obscurity next November.

Yours very respectfully,
Calvin Mitchell,
304 S. Mitchell Ave., Arlington Heights, Ill.

Arlington Theatre Stages New Diversions

In spite of the hectic weather Mr. Godshaw manages to keep this cozy 500 seat theatre comfortably full at all times. The singer gets ranging from 25 inches tall to not over 3 foot 3 top, will be part of the Sunday program. These tiny little humans are world famous under the leadership of General Tom Thumb. The feature for Sunday is a drama of excellent proportions and rated a fine family offering.

An enlargement program giving an additional 300 seat capacity is being drafted and drawn up and if Godshaw concludes it necessary it will be done. All in all, after many long years of waiting, Arlington Heights has a banner theatre and sound that can't be beat.

ARLINGTON HEIGHTS GARDEN CLUB

HUMUS FOR GARDENS

A soil rich in humus is desired by most gardeners. This may be had by saving weeds, grass and plant tops that are free from disease and harmful insects. These should be piled together in alternate layers with earth and then dampeened well. This pile should be turned over from time to time, three or four times a season. This turning helps in making decomposition more rapid.

If one does not desire to have an unsightly pile in the back of his lot, he may use an old barrel or perhaps a paint or an oil drum. If the latter is used, punch holes in the bottom to permit drainage.

This natural process may seem a bit slow, but it is very inexpensive. The rate of decomposition can be hastened and at the same time the food supply increased by the use of chemicals.

The following chemical composition can be utilized for more rapid decomposition:

Ammonium sulphate, 12 parts.

Superphosphate, 6 parts.

Potassium chloride, 5 parts.

Ground limestone, 10 parts.

The ground limestone is added to prevent the mass from becoming too acid. If acid soil is desired the limestone may be left out or the quantity reduced.

Another chemical composition is equal parts of ammonium sulphate, precipitated chalk, and bone meal. Sprinkle this in the material to be used for the compost pile.

The Missouri experimental station has used the following combination:

Ammonium sulphate, 45 lbs.

Rock phosphate, 15 lbs.

Limestone, 35 lbs.

Magnesium sulphate, 2.5 lbs.

Salt, 2.5 lbs.

Acid phosphate has been used with success in place of rock phosphate. In using the above combination, spread the mixture over and mix it through the compost pile. One hundred fifty pounds of the above is to be used on one ton of straw. Wetting is necessary for more rapid decomposition during a dry year.

The use of straw for compost compared favorably with the use of animal manure in appearance, analysis, and results from field tests.

Colman Wins Ten Million: Spends in Love's Pursuit

Probably everyone in the world, at one time or another, has toyed with the idea of what he would do with a million dollars. It's a fascinating subject with as many answers as there are people. This intriguing idea is developed in 20th Century's sophisticated comedy, "The Man Who Broke the Bank at Monte Carlo," starring Ronald Colman, which comes Sunday to the Des Plaines Theatre.

With Joan Bennett in the feminine lead, the picture moves at a fast and furious pace from Paris to Monte Carlo, to Switzerland, back to Paris and then to Monte Carlo again.

Colman enacts the role of a deposed Russian Prince who runs a few hundred francs into ten million.

He promptly divides half of the sum among fellow exiles who have contributed small bits to the amount he staked at the tables and uses the remainder in the pursuit of romance, represented by Miss Bennett.

Joan Bennett has the most colorful role of her career as the girl hired by the gambling syndicate to lure Colman back to the gaming tables and proceeds to fall in love with him. Crammed with excitement, romance and comedy, "The Man Who Broke the Bank at Monte Carlo" builds to a surprise-filled climax.

1936 IS THE TIME TO BUILD

So This Is America!

The United States Has Seven Per Cent of the World's Population But One-Half or More of the World's Goods Widely Distributed.

Arlington Elevator Installs Oil Treatment For All Coal Handled

The dust of soft coal which has been the ban of many a housewife, is something to be forgotten by customers of Arlington Elevator and Coal Co. This firm has installed a patented machine which treats all coal with oil when it is received from the cars.

The machine which was put into operation Monday for the first time soon proved its effectiveness. The most particular housewife found that wetting of coal was a thing of the past. The coal is sprayed with a fine odorless oil. As the coal is placed in the silos, the oil seems to penetrate downward to all of the fuel in the bin. The cost to firm for this treatment is 7 cents a ton, but no additional charge is made to the customer.

Arlington Heights has had a number of narrow escapes from coal famine the past week. The need for stoker coal was very acute Monday and a special engine brought a carload to Arlington Heights about 7 o'clock that evening. Delivery was made to the Vail Davis building an hour later.

Our standard of living is so much higher than in foreign countries that we consume one-half of the world's coffee; one-half of its rubber; one-half of its sugar; three-fourths of its silk; one-third of its coal and two-thirds of its petroleum.

Our educational system and our schools, which assure everyone a free education, are the envy of the world. In 1933, a depression year, there was spent in the United States more than three billion dollars for education, and that was more than the amount expended for education by all of the other countries in the world. The United States is the only country in the world to put one out of every five children through high schools, and one out of every 116 through college.

The worker's share of all national income has grown from 38 per cent in 1930 to 65 per cent in 1929, and has remained at this level during the depression. This country has attained world leadership in efficient production because of the willingness to produce on the part of the workers, and the willingness to pay on the part of the employers.

Most workers in America are property owners and as such may be called capitalists. In 1930, 14 million families owned their own homes. More than half of all the farmers owned their own farms. There was an automobile for four out of five families. Two out of every three families had telephones and electricity, and 40 per cent of all families had radios. In 1934, including postal savings, there were more than 38 million savings accounts in banks throughout the country with aggregate deposits exceeding two billion dollars.

At the beginning of 1934 there were over thirty-one and one-half million ordinary life insurance policies in force for a face value of over 70 billion dollars. In addition there were over eighty-eight and one-quarter million industrial policies calling for payment of almost eighteen and one-half billion dollars.

Is this a social order worth every protection and safeguard?

At the beginning of 1934 there were over thirty-one and one-half million ordinary life insurance policies in force for a face value of over 70 billion dollars. In addition there were over eighty-eight and one-quarter million industrial policies calling for payment of almost eighteen and one-half billion dollars.

CONSTITUTIONAL MONEY

Calvin Mitchell, Arl. Hts. resident, is thoroughly convinced that "constitutional money," as he calls it, if issued in sufficient quantities will solve the troubles of the United States. He does not call it inflation, backed as it would be by the wealth of the United States.

Mr. Mitchell in accompanying articles states his stand and predicts that members of congress who vote against some such plan will be made to "walk the plank" at the election in November.

Coming Shows

At The Catlow

After several months spent in close study of the voices and dictation of the screen's outstanding players, Phyllis Lughton, dramatic coach at Paramount studios, is back at her desk ready to advise the crop of new talent that has been signed for the coming year's productions.

Of all the players she studied, Miss Lughton said that Claudette Colbert is "the one who has the most perfect control of her voice and is understandable universally." The dramatic coach sat on the sidelines during most of the filming of Miss Colbert's latest picture, "The Bride Comes Home," which opens on Wednesday at the Catlow theatre.

"Miss Colbert," she said, "is truly a remarkable person. She not only is a superb actress and a beautiful girl. Her sparkling voice seems to have been created for sound pictures."

Miss Lughton also praised the voices and diction of Joan Crawford, Gary Cooper, Helen Hayes, Mae West, Leslie Howard, Joan Bennett and Frances Langford.

To be seen in "The Last Days of Pompeii," coming Sat., Feb. 22, is the eruption of Vesuvius which, with the accompanying earthquake, completely demolishes the classical-beautiful city.

Preston Foster, heading a strong cast, appears as the powerful master of the arena where life and death battles are staged between slaves and barbarians. Alan Hale is his crony, Pontius Pilate, representative of the Roman Law in Judea, is played by Basil Rathbone and Louis Calhern. John Wood, David Holt, Dorothy Wilson and Wryle Birch play other important roles.

"Captain Blood," the Cosmopolitan production on Sun. & Mon., Feb. 23 and 24. Arming the "Captain Blood" company was quite a job. The director, Michael Curtiz, insisted on realism. The cannons could not be dummies. They had actually to shoot. They were mounted on fortifications and on ships for the battles scenes.

"Stormy," the Universal drama of the great outdoors which comes to the Catlow theatre next Tuesday, Feb. 25 with Noah Beery, Jr., Jean Rogers, Rex, the king of wild horses; and the original Arizona Wranglers. The entire picture was made in the Painted Desert and other beautiful Arizona locations often more than 112 miles from the railroad.

Probably everyone in the world, at one time or another, has toyed with the idea of what he would do with a million dollars. It's a fascinating subject with as many answers as there are people. This intriguing idea is developed in 20th Century's sophisticated comedy, "The Man Who Broke the Bank at Monte Carlo," starring Ronald Colman, which comes Sunday to the Des Plaines Theatre.

With Joan Bennett in the feminine lead, the picture moves at a fast and furious pace from Paris to Monte Carlo, to Switzerland, back to Paris and then to Monte Carlo again.
